Enter to Learn, Depart to Serve

## Our Mission

We are committed to the development of our students as adaptive learners, global thinkers, and responsible citizens through collaboration across our school community.

### Announcements:

Students,

Whether you are a returning student, an incoming freshman, or a transfer student, I would like to personally welcome you to the Pontiac Township High School community. As a school community we are committed to your development as an adaptive learner, global thinker, and responsible citizen. Since our school is a cooperative enterprise, you must share in the responsibility for reaching the mission. Your main responsibilities will be taking advantage of every educational opportunity available and conducting yourself in a respectful manner with other community members.

We take great pride in our tradition of academic excellence and exceptional extra- and co-curricular activities offered at Pontiac Township High School. During your time here you will be provided several opportunities to be involved in activities. We have found students who are involved in the school community perform better in the classroom. In addition, it is during these times in which you will make friendships which will last a lifetime.

I wish you the best during the school year and hope you make the most of all the opportunities available at Pontiac Township High School.

Sincerely,

Eric Bohm, Principal
